## INFO ON SCHOOL STUFF

**OVERVIEW** Justin has a variety of programs suitable for all age groups and all kinds of schools. He is covered under many federal programs, including Safe and Drug Free Schools, Campus Improvement, Title I, Title IV, Character Education, Abstinence Education, Pregnancy Prevention, Tobacco Prevention, and many others. If your grade levels do not break up exactly like what is shown below, don't worry. Justin can customize the programs so that they work for you.

### MIDDLE SCHOOL & HIGH SCHOOL PROGRAMS

**PROGRAM**  
Dateable: It's a Character Thing

**TIME**  
45–90 minutes

**GRADES**  
9–12

**OPTIONS**

Talk to Justin about the length of time you have. He can tailor his presentation to meet your needs. Many schools have Justin come in early and make himself available in a common area so students can ask questions. He is more than happy to do this, but please make sure he gets something to eat. (If he has too much fun talking, he might forget about lunch. And just so you know, hamburgers are one of his favs).

This is the #1 most requested program Justin has ever produced because it's the one where he spills the beans. He shares all the juicy secrets (all the guys' secrets and all the girls' secrets) to help students understand what being Dateable really means. It's not about getting a date, but it is about character and confidence. It's about being bold enough to do what is right and being secure enough to stand alone. This program hits all of the hot-button issues of alcohol, tobacco, drugs, pregnancy, and dropping out of school, and shows how all of these affect students' views of self and others.

The program runs between 45 and 90 minutes because Justin likes to allow the students to ask questions at the end (yeah, we thought he was crazy, too, but it works). He handles any issue they throw out there and gives them an honest and appropriate answer.

## INFO ON PROGRAMS

### SCHOOL STUFF

**PROGRAM**  
A.C.V

Between the time he was a kid who couldn't read and write very well to the time he became a #1 bestselling, award-winning author, Justin learned what it takes to get out of the rut and into a life of unbelievable possibilities. Now he offers this advice to today's teens.

**TIME**  
45–50 minutes

**GRADES**  
6–8 or 9–12

To change the course of this generation, we must start with the positive end of prevention. Justin will show students how to dream big, get out of their small cliques, and use specific strategies to make their goals a reality. With this positive message, Justin shows that we won't have to preach against alcohol, tobacco, or other drugs because students' lives will be full and focused. This program will set your students on their way to a powerful lives that will be centered on the right things—attitude, character, and values.

**PROGRAM**  
Choices that Rock!!!

You are the choices that you make. And now is the time that students start making some of the most important choices of their lives. In this program, Justin gives students valuable knowledge and sharpens their decision-making tools so they can make choices that rock.

**TIME**  
45–50 minutes

**GRADES**  
3–6

Students will learn about the true meaning of character, plus the truth behind inhalants, peer pressure, and bullying. Students will have to watch carefully as Justin jumps from one character to another and then leaves them with a little magic. In the end, Justin will leave a lasting impact on students as he challenges them to make the choices that will change their lives.

**PROGRAM**  
J.E.R.K. (Just Encourage Respect & Kindness)

Bullies are everywhere. They destroy self-esteem, disrupt class, hinder learning, and are just plain jerks. Justin knows bullies. Being a Juvenile Probation officer for nearly six years gave him a little understanding of the Bully Mentality. And here, he turns the tables.

**TIME**  
45–50 minutes

**GRADES**  
3–5

In this program, Justin shows how to identify and ditch a bully by redefining what J.E.R.K. really means. He offers students specific strategies that they can use to get rid of the bully at their school. He gives students power to overcome and talks directly and plainly to the bullies themselves. Before they leave, students will get the information they need to change their school environment.

## INFO ON PROGRAMS

### SCHOOL STUFF

**PROGRAM** J.E.R.K. (Just Encourage Respect & Kindness) (continued) **PROGRAM** Note of caution: If you want the soft, watered-down bully program that gets those who bully to love themselves more so they can deal with their deep issues...this ain't it. But if you want to stop the behavior and improve your campus environment, then you'll want to check this out.

**PROGRAM** Cool Cat or Terrible Troll! **PROGRAM** Obeying rules and making healthy choices are the signs of a Cool Cat. A Terrible Troll doesn't like rules and makes poor choices, often leading others into those same danger zones.

**TIME**  
35 minutes

**GRADES**  
PK-3

In this program, Justin has a unique way of discussing these very important topics with very impressionable audiences. Through props, costumes, drama, and enough energy to light up New York City, Justin gives students the opportunity to interact and participate in his presentations. By the end of the day, the students are in a frenzy about being Cool Cats... AND they know why!

**PROGRAM** Standardized Test Taking Training

**TIME**  
60-90 minutes

**GRADES**  
3-12

Justin helps students to be in the best position to make the most out of their test taking skills. Teachers already do an incredible job preparing students for these tests; Justin simply allows them to relax while he teaches students how to access the knowledge they already have. Standardized testing puts so much pressure on both students and teachers; this program is a breath of fresh air, giving students the positive boost they need to knock a home run.

**OPTIONS**

This program is perfect for grades 3-12, but not all at one time, please! Justin will cover many of the same basic issues in each program, but he does laser-focus at age-appropriate learning levels.

This program includes: an explanation of the mind, a visualization of a long-term life, an understanding of the importance of this one test, a description of how one test (a single event) connects with their futures, specific strategies to unlock the knowledge students already have, and a relaxation and focus technique.
